The First Community Foundation Partnership of Pennsylvania (FCFP) is looking for ways to involve local residents in philanthropy and community causes.

FCFP has created an innovation grant challenge designed to build and strengthen communities and we want your ideas!

Imagine you had up to \$25,000. How would you advance or promote racial equity in Lycoming County?

- What is your idea?
- How will you make it happen?
- How will you spend the money if awarded?
- How are you inspired by the idea of inclusivity?
- How will this inspire others to be inclusive?
- Will this make lasting change?

Selected ideas and project funding from FCFP will be proposed to area nonprofits interested in facilitating the initiative.
